

ONE STOP SHOPPING FOR ALL YOUR AUTOMOTIVE NEEDS

Managing a fleet requires minimizing downtime and ensuring vehicles are always road-ready. Our Priority Service offers:

- **Dedicated Support** – Access to a specialized team of fleet service consultants assisting from vehicle acquisition to maintenance.
- **Priority Scheduling** – First-bay, first-technician service ensures your vehicles spend less time in the shop and more time on the road.
- **Customized Upfitting** – Benefit from allowances to tailor vehicles to your specific business needs.
- **Flexible Maintenance Plans** – Choose from pre-paid maintenance plans suited to your business size, ensuring coverage when maintenance needs arise.

SATISFIED CUSTOMERS!

In my experience running a small fleet, quick turnaround time for vehicle service is crucial. Casey's has consistently provided top notch customer service and efficient service, ensuring minimal downtime for our vehicles.

DIGITAL VEHICLE INSPECTIONS FOR MANAGERS

Our advanced Digital Vehicle Inspection (DVI) system enhances fleet management by providing:

- **Time Efficiency** – Digital inspections streamline the process, saving valuable time.
- **Enhanced Data Accuracy** – Standardized checklists ensure thorough and accurate inspections.
- **Real-Time Reporting** – Inspection data is instantly transmitted to a centralized dashboard for immediate review.
- **Improved Compliance** – Ensures adherence to DOT inspection and DVIR requirements.
- **Cost Reduction** – Reduces errors, improves communication, and leads to significant cost savings.

EXAMPLE DIGITAL VEHICLE INSPECTION REPORT

Here is a real-time example of our digital vehicle inspection, giving fleet managers instant access to a vehicle's condition and necessary maintenance updates.

Key Features of the Digital Inspection Report:

- **Comprehensive Visual Documentation** – High-quality images of vehicle components highlighting areas requiring attention.
- **Detailed Technician Notes** – Insights and recommendations from certified technicians for transparency and informed decision-making.
- **Service History Tracking** – Access to previous inspection results and maintenance records to facilitate proactive fleet management.

Integrating Priority Service and Digital Vehicle Inspections into your fleet management strategy ensures operational efficiency, reduces downtime, and enhances vehicle safety. These advancements help keep your fleet running smoothly and reliably while allowing fleet managers to make informed maintenance decisions in real-time.
